

Cautionary Statement Regarding Forward-Looking Information

Much of the information contained in this presentation is forward-looking information based upon management's current expectations and projections that involve risks and uncertainties. Forward-looking information includes, among other things, information concerning earnings per share, rate case activity, earnings per share growth, cash flow, sources of revenue, dividend growth and dividend payout ratios, capital plans, construction costs, investment opportunities, corporate initiatives (including any generation reshaping plan), rate base, and environmental matters (including emission reductions). Readers are cautioned not to place undue reliance on this forward-looking information. Forward-looking information is not a guarantee of future performance and actual results may differ materially from those set forth in the forward-looking information.

Factors that could cause actual results to differ materially from those contemplated in any forward-looking statements include, but are not limited to: general economic conditions, including business and competitive conditions in the company's service territories; timing, resolution and impact of rate cases and other regulatory decisions; the company's ability to continue to successfully integrate the operations of its subsidiaries; availability of the company's generating facilities and/or distribution systems; unanticipated changes in fuel and purchased power costs; key personnel changes; varying weather conditions; continued industry restructuring and consolidation; continued adoption of distributed generation by the company's customers; energy and environmental conservation efforts; the company's ability to successfully acquire and/or dispose of assets and projects; cyber-security threats and data security breaches; construction risks; equity and bond market fluctuations; changes in the company's and its subsidiaries' ability to access the capital markets; the impact of tax reform and any other legislative and regulatory changes, including changes to environmental standards; political developments; current and future litigation and regulatory investigations, proceedings or inquiries; changes in accounting standards; the financial performance of American Transmission Co. as well as projects in which the company's energy infrastructure business invests; the ability of the company to obtain additional generating capacity at competitive prices; goodwill and its possible impairment; and other factors described under the heading "Factors Affecting Results, Liquidity and Capital Resources" in Management's Discussion and Analysis of Financial Condition and Results of Operations and under the headings "Cautionary Statement Regarding Forward-Looking Information" and "Risk Factors" contained in WEC Energy Group's Form 10-K for the year ended December 31, 2018, and in subsequent reports filed with the Securities and Exchange Commission. WEC Energy Group expressly disclaims any obligation to publicly update or revise any forward-looking information.

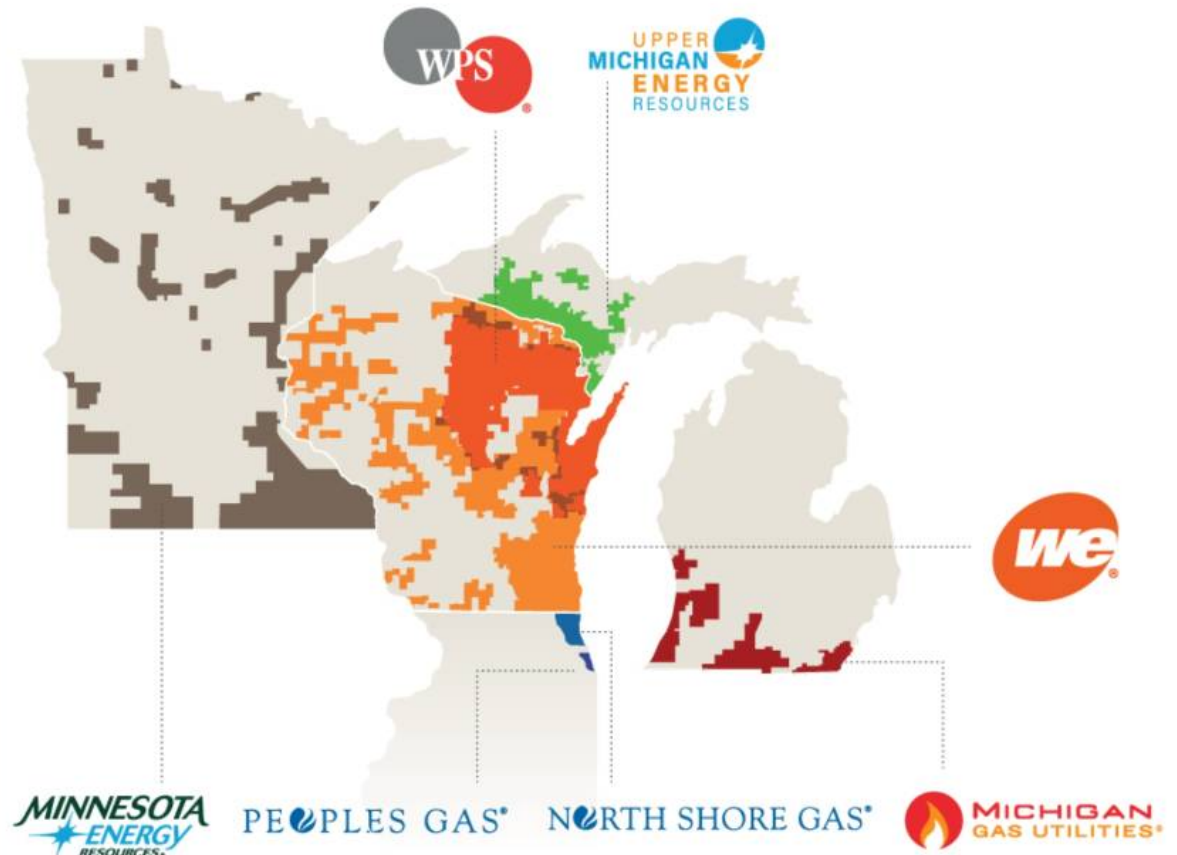

Group expressly disclaims any obligation to publicly update or revise any forward-looking information.

Company Statistics

- \$29.8 billion market cap*
- 1.6 million electric customers
- 2.9 million natural gas customers
- 60% ownership of American Transmission Company
- 70,100 miles of electric distribution
- 49,000 miles of gas distribution
- \$34.4 billion of assets
- 8th largest natural gas distribution utility in U.S. based on customers
- 11th largest publicly traded utility in U.S. measured by market value

* As of 10/31/2019

Delivering reliable, affordable energy to our customers. Reducing greenhouse gas emissions. Building and maintaining safe, resilient infrastructure. These imperatives continue to drive our decision-making, and the results are clear.”

Electric and Gas Rate Case Settlements

We Energies & Wisconsin Public Service

- PSCW approved rate settlements on October 31
 - Expect to receive final written order by end of 2019
- Authorized Return on equity:
 - Wisconsin Electric – 10.0%
 - Wisconsin Gas – 10.2%
 - Wisconsin Public Service – 10.0%
- Capital structure equity component at all three utilities - 52.5%
- Updated Earnings Sharing Mechanism:

WE & WPS	WG	Treatment
10.00 – 10.25%	10.20 – 10.45%	No sharing
10.25 – 10.75%	10.45 – 10.95%	50/50 sharing
>10.75%	>10.95%	100% customer

- Wisconsin Electric will seek a financing order to securitize \$100 million of the remaining book balance of the Pleasant Prairie Power Plant
- Final treatment of WPS environmental investment at Weston Unit 3 to be determined

- Decision expected in November

New Liquefied Natural Gas (LNG) Facilities

Taking steps to maintain reliable and affordable service for our customers

These LNG facilities provide a solution for Southeastern Wisconsin to meet peak customer demand on the coldest days of the year

- We Energies is seeking approval for two LNG facilities to address the need for additional natural gas supply in Wisconsin
- Total expected investment: \$370 million
- If approved, construction is expected to begin summer of 2021
- Targeted in-service date: Late 2023

Wisconsin Utilities

Investing in Zero-Carbon Generation

- Solar generation technology has improved in efficiency, become more cost-effective and complements our summer demand curve.
- Wisconsin Electric, Wisconsin Public Service and Madison Gas & Electric are partnering on major solar initiatives.
- In addition, Wisconsin Electric is moving forward on two innovative renewable pilot programs for 185 MW of carbon-free generation.

Project	Utility	Location	Investment	Capacity**	Estimated Completion
Badger Hollow Solar Park	WPS	Iowa County, WI	\$130M	100MW	2020
Two Creeks Solar Project	WPS	Two Rivers, WI	\$130M	100MW	2020
Badger Hollow II Solar Park*	WE	Iowa County, WI	\$130M	100MW	2021

*Filed for PSCW approval on August 1, 2019

**Madison Gas & Electric will own an additional 50 MW at each site

Infrastructure Portfolio Investments

- Expected to provide returns that are higher than those in our regulated business
 - Approximately mid-8% unlevered internal rate of return
- Expected to qualify for 100% bonus depreciation and production tax credits

Project	Investment	Offtake Agreement	Capacity
Upstream Wind Energy Center	\$276M for 80% ownership	Affiliate of Allianz – 10-yrs	~200MW
Bishop Hill III Wind Energy Center	\$166M for 90% ownership	WPPI Energy – 22-yrs	~132MW
Coyote Ridge Wind Farm*	\$145M projected for 80% ownership and 99% of tax benefits	Google Energy – 12-yrs	~97MW
Thunderhead Wind Energy Center*	\$338M projected for 80% ownership	AT&T – 12-yrs	~300MW

Energy Center

Ownership

12-yr

*Closing projected at the end of 2019 for Coyote Ridge, and the end of 2020 for Thunderhead

Environmental, Social and Governance Performance

Balancing reliability and customer cost with environmental stewardship

Reshaping our generation includes:

- Retiring older fossil-fueled generating units – already more than 1,800 MW since 2017
- Building state-of-the-art natural gas generation
- Investing in cost-effective zero-carbon generation

Resulting in:

- Reduced costs to customers
- Maintenance of fuel diversity
- Lower carbon emissions

Reduction Goals:

40%
below 2005
levels by 2030

80%
below 2005
levels by 2050

Methane Reduction Goal

*This goal represents a decrease in the rate of methane emissions from the natural gas distribution lines in our network of 30% per mile by the year 2030 from a 2011 baseline.

Environmental, Social & Governance Focus

Carbon Goal	Reduce carbon dioxide emissions by approximately 40% below 2005 levels by 2030 and 80% below 2005 levels by 2050
Methane Reduction Goal	Reduce the rate of methane emissions by 30% per mile from a 2011 baseline by 2030
15.1 million metric tons	Amount of combustion products for beneficial use provided over the past 18 years
\$0.9 billion	Planned utility renewable investments between 2020-2024
\$17.3 million	Donated by our companies and foundations to nonprofit organizations in 2018.
46% diversity	Board of directors who are female and/or ethnically diverse
\$263.1 million	Spent with certified minority, women-owned, veteran-owned or service disabled-owned businesses in 2018
\$123.1 million	Spent on energy efficiency and conservation in 2018

Spent on energy efficiency and conservation in 2018

Longer-Term Sales Forecast Benefits from Regional Economic Growth

Key Takeaways for WEC Energy Group

- Track record of exceptional performance
- Portfolio of premium businesses
- Investment opportunities support 5-7 percent EPS growth with minimal impact on base rates
- 100 percent of capital allocated to regulated businesses or contracted renewables/gas storage
- Dividend growth projected to be in line with earnings growth
- No need to issue additional equity through forecast period
- Poised to deliver among the best risk-adjusted returns in the industry

“Delivering” the Future

Project Highlights

Electric Redesign/ Resilience

- Major investments planned to address aging infrastructure
- Expect to spend \$2.8 billion over the next 5 years on electric delivery
- Committed to delivering the future with infrastructure that will reduce operating costs and meet new environmental standards
- Installing 2,200 miles of underground circuits to replace troublesome overhead lines, and adding distribution automation equipment through our System Modernization

Natural Gas System Modernization Program

- Extensive effort to modernize natural gas infrastructure in city of Chicago
- Ultimately PGL expected to replace 2,000 miles of piping
- Project \$280-300 million annual average investment
- Illinois law authorizes rider through 2023

Technology Enhancements

- Advanced metering program uses integrated system of smart meters to enable two-way communication between utilities and customers
- Upgrading We Energies customer information system
- Project to spend ~ \$1.2 billion (2020 – 2024) across four states we serve

through our System Modernization and Reliability Project at WPS

108 GE wind turbines with
a capacity of ~300MW

Infrastructure Investment

Thunderhead Wind Energy Center

- Under development by Invenergy and located in Antelope and Wheeler Counties, Nebraska
- Total investment: \$338 million for an 80% ownership interest
- Expected returns are higher than those in our regulated business
 - Approximately mid-8% unlevered internal rate of return
- Expected to qualify for 100% bonus depreciation and production tax credits
- 12-year offtake agreement with AT&T for 100% of the energy produced
- Projected in service date: End of 2020

Infrastructure Investment

Coyote Ridge Wind Farm

- Currently being built by Avangrid Renewables in Brookings County, South Dakota, within MISO footprint
- Total investment: \$145 million for an 80% ownership interest and substantially all of the tax benefits
- Expected returns are higher than those in our regulated business
 - Approximately mid-8% unlevered internal rate of return
- Expected to qualify for 100% bonus depreciation and production tax credits
- 12-year offtake agreement with Google Energy LLC for 100% of the energy produced
- Projected in service date: December 2019

81 GE wind turbines with
a capacity of ~200 MW

Infrastructure Investment Upstream Wind Energy Center

- Built by Invenergy and located in Antelope County, Nebraska
- Total investment: \$276 million for an 80% ownership interest
- Expected to provide returns that are higher than those in our regulated business
 - Approximately mid-8% unlevered internal rate of return
- Qualifies for 100% bonus depreciation and production tax credits
- 10-year offtake agreement with affiliate of an A-rated publicly traded company (Allianz)
- Transaction closed on January 10, after commercial operation was achieved

53 GE wind turbines with
a capacity of ~132 MW

Infrastructure Investment

Bishop Hill III Wind Energy Center

- Developed by Invenergy and placed into service in May 2018
- Located in Henry County, Illinois
- Total investment: \$166 million for a 90% ownership interest
- Expected to provide returns that are higher than those in our regulated business
 - Approximately mid-8% unlevered internal rate of return
- Expected to qualify for 100% bonus depreciation and production tax credits
- 22-year offtake agreement with a current wholesale customer, WPPI Energy
- Acquisition of the initial 80% interest closed on August 31, 2018
- Incremental 10% equity interest closed on

December 5, 2018

- Constructive regulatory environments
- Earnings sharing mechanism at all Wisconsin utilities

Foxconn announced July 26, 2017, Wisconsin's largest economic development project and largest corporate attraction project in U.S. history, as measured by jobs.

Foxconn in Wisconsin

- Expected capital investment by Foxconn of \$10 billion dollars
- Goal of creating 13,000 jobs, and an estimated 22,000 indirect jobs created throughout Wisconsin
- Largest greenfield investment by a foreign-based company in U.S. history as measured by jobs
- One of the largest manufacturing campuses in the world
- Groundbreaking ceremony held on June 28, 2018, and significant construction is underway
- North American headquarters in Milwaukee, and innovation centers in Green Bay, Eau Claire and Racine
- Operations expected to begin in 2020, ramping up through 2023

Powering Industry Leaders in Our Region

amazon Expansion

- State-of-the-art fulfillment center in Oak Creek, WI featuring robotics to pick, pack and ship items to customers
- \$200 million development that includes a four-story, 2.6 million-square-foot facility on 75 acres
- Expected to open in first quarter 2020, and employ 1,500 people

Reconciliation of Reported EPS (GAAP) to Adjusted EPS (Non-GAAP)

	2017	2016
Reported EPS – GAAP basis	\$ 3.79	\$ 2.96
Tax benefit related to Tax Cuts and Jobs Act of 2017	\$ (0.65)	—
Acquisition Costs	—	\$ 0.01
Adjusted EPS – Non-GAAP basis*	\$ 3.14	\$ 2.97

* WEC Energy Group has provided adjusted earnings per share (non-GAAP earnings per share) as a complement to, and not as an alternative to, reported earnings per share presented in accordance with GAAP. Adjusted earnings per share exclude a one-time reduction in income tax expense related to a revaluation of our deferred taxes as a result of the Tax Cuts and Jobs Act of 2017 as well as costs related to the acquisition of Integrys, neither of which is indicative of WEC Energy Group's operating performance. Therefore, WEC Energy Group believes that the presentation of adjusted earnings per share is relevant and useful to investors to understand the company's operating performance. Management uses such
